PROFILE SUMMARY

A technical game designer focused on creating robust gameplay systems using Unreal Engine. Experienced in Blueprint scripting, rapid prototyping, and logic-driven design, with a strong ability to translate ideas into functional in-game mechanics. Currently pursuing a B.Sc. in Animation, VFX, and Gaming at Chandigarh University.

EXPERIENCE

OverTurned - Game Project

JAN - MAR 2026

Team Leader & Lead Game Programmer

OverTurned is a physics driven miniature Racing game, in environments with a touch of childhood nostalgia.

- Led the development of **Overturned** (Team of 4) in Unreal Engine.
- Built Modular car physics using **UE5 physics-constraints**.
- Developed a 2-4 player couch **co-op system** for the game. Learnt co-op replication and multi-player handling.
- Developed the selection menu and UI systems for navigation and setup

Project Polychrome - Game Prototype

AUG - NOV 2025

Team Lead & Technical Game Designer

- Designed and implemented a **Fez-inspired perspective-shifting camera system** that altered player navigation and puzzle-solving.
- Led a multidisciplinary team throughout **concept development, prototyping production**.
- Implemented core gameplay mechanics and systems using **Unreal Engine 5 Blueprints**

PREVIOUS CREATIVE EXPERIENCE

Freelancing

2023 - 2025

3D Animation & Rendering

Migoto Designs

MAY 2025 - JAN 2026

Part-time 2D & 3D Artist

ACHIEVEMENTS

Reality-X GAMEATHON - Game Jam

FEB-2026

Zapped - A Couch co-op racing game made in 24 hours. Served as the Team Leader and the Lead Gameplay Developer in the game jam. Finished in Top 10.
