PROFILE

Game Designer with 4+ years of Unreal Engine experience (UE4/UE5), specializing in gameplay systems design, rapid prototyping, and player-focused design iteration. Proven ability to take game concepts through a full development pipeline – feature scoping, wireframing, implementation, playtesting, and design iteration using blueprint scripting and a design-to-implementation workflow. Experienced in leading multidisciplinary teams, producing design documentation, and delivering across level design, multiplayer systems, vehicle gameplay, and mobile development. Open to relocation for full-time opportunities internationally.

EXPERIENCE

01/2026 – 04/2026	Game & Technical Designer, Gameplay Programmer (Blueprints) OverTurned - Game Project - Shipped 2-4 player co-op game in UE5 via modular Blueprint physics and replication. - Reduced onboarding friction through playtesting and Blueprint physics iteration. - Delivered 4-player user experience (UX) on scope via wireframes, flowcharts, and Blueprint menus. - Maintained design integrity across a 4-person team via design and feature docs.
07/2025 – 11/2025	Team Lead & Technical Game Designer Project Polychrome - Game Prototype - Validated perspective-shift camera via playtests; built Timeline-driven rotation lerp in UE5. - Delivered reviewed prototype in 16 weeks via scoping, docs, and rapid sprints. - Maintained cross-discipline alignment via flowcharts and feature specification breakdowns.

EDUCATION

2023 – 2026 Sahibzada Ajit Singh Nagar, India	Animation, VFX & Gaming (Game Design Major) Bachelor of Science Chandigarh University <i>CGPA: 8.30/10 – consistent upward trend, peaking at 9.12 GPA in Semester 6</i> <i>Graduated June 2026</i>
2011 – 2023 Dappar, India	Science (Non-Med) Kendriya Vidyalaya

SKILLS

– GAME DESIGN			
Gameplay & Mechanics Design	Core Loop & Progression	Level, Puzzle & Vehicle Design	Game Balancing & Economy
Rapid Prototyping	Game Design Documents (GDDs)	Wireframing & Flowcharts	Iteration & Playtesting
– TECHNICAL SKILLS			
Unreal Engine	Unreal Engine Blueprints	Technical design	Optimization
Multiplayer replication	Unreal Engine Materials	Data-Driven Design	Systems Integration
Mobile Development (Android/UE5)	Mobile Optimization	Multiplayer Gameplay Systems	Replication Fundamentals
– ADDITIONAL SKILLS			
Blender	3D Modeling	3D Animation	Cross-Discipline Communication
Technical Writing	Collaborative skills	Figma	MS Office

ACHIEVEMENTS

Zapped – Reality-X GAMEATHON Game Jam (*Unreal Engine · Team of 5*)
A Couch co-op racing game made in 24 hours. Led gameplay systems as Team Leader, finished in Top 10.

Mareeno – Brackeys Game Jam 2025.2 (*Godot · Duo*)
2D deep-sea dive built around a risk-reward oxygen and treasure quota loop.

- Co-designed risk-reward oxygen-quota economy loop in Godot. Ranked #490 of 2,271.
